

## Officer reports

### **SIG Coordinator**

Planning has already begun for JALTCALL2021 to be held at Hirosaki Gakuin University in beautiful Hirosaki, Aomori Prefecture. After a successful JALTCALL2020 virtual conference, we are hoping to build off our experiences and create opportunities for participants in both online and traditional face-to-face formats. We are energized by the addition of multiple new officers-at-large who have made enormous contributions, as well as our other officers and members who have picked up new challenges and have greatly benefited our team.

### **Publications Chair**

The post-conference publication for this year's JALTCALL2020 Conference will be published in the beginning of January. We had many submissions and will end up with about the same amount of chapters as last year's publication – should be a great resource! The members will be notified when the book is available for download.

This is not related to publications, but I recently had the chance to lead the CALL SIG's co-sponsorship of the University of Tsukuba's 4th CEGLOC Conference. The CALL SIG representatives helped to vet the presentation proposals and host the presentation session Zoom rooms. The event was a big success and the organizing committee was very grateful for the SIG's support!

We hope everyone enjoyed the forum at the JALT2020 conference! If you missed it you can find it on YouTube on the JALT channel at <https://www.youtube.com/watch?v=vPvy56jdNmo>

We are now excited to start working on the JALT2021 conference. Keep an eye out for more announcements as we move forward into 2021.
